

KIMBERLEY SEAT

RECYCLED PLASTIC

1.1m Kimberley Seat

The Kimberley seat is our most popular all-recycled plastic seat. Constructed using 90 x 40mm slats on sturdy recycled plastic supports, the Kimberley can be produced in any length up to 3.6m. As well as the commonly supplied free standing model, the Kimberley is available with in ground supports if required.

As with all Replas furniture, Kimberley seat slats are available in green, blue, brown and grey. The supports come in a choice of black or green.

With their extreme durability and low maintenance features, the Kimberley seat represents excellent value when compared to the alternatives available.
