

# PREMIER SETTING RECYCLED PLASTIC

**Metal Art Limited**  
Street & Park Furniture

Premier Slimline Setting with three supports

The recycled plastic Premier Setting by Replas offers greater leg room thanks to the clever design of the bench and table supports. The use of a galvanised steel frame means that only two legs are required to support both benches and table. A three support option without the steel frame is available if preferred.

Premier tables and bench slats are available in your choice of our four recycled plastic colours, on black supports. The standard Premier table uses 40 x 200mm slats, the Slimline 40 x 90mm

Unlike other outdoor furniture which require ongoing maintenance, our recycled plastic table settings will not split, splinter or crack, and they never need painting.

Premier Standard Setting with two supports and steel frame
